

## Independent Revenue Forecasting Commission

Approval of recommendations

August 27, 2025

### Agenda

### Revenue growth

- Conduct a comprehensive analysis of County tax revenues to identify the reasons behind revenues with stagnant growth
- Consider options that will help ensure the County's revenues base remains robust
- Explore available avenues to ensure the County is receiving its fair share of existing taxes collected on its behalf

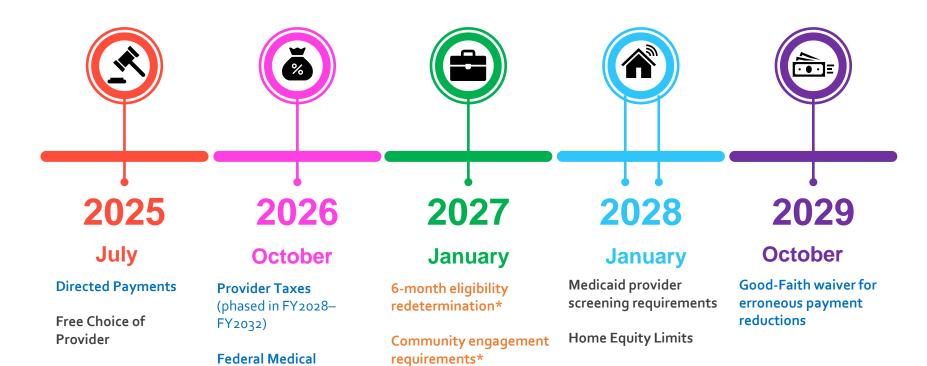

### Revenue growth

Deliverable	Timing
Compare projected growth rates of revenue sources with the forecasted growth rate of the Consumer Price Index for Chicago Metropolitan Statistical Area	FY2025
Consider options to help ensure the County's revenues base remains robust	FY2026
Explore approaches to ensuring the County is receiving sales tax revenues for all sales within the County to which it is entitled	FY2026
Continue efforts to be proactive in identifying data and research that would be required to plan and perform analysis of any new revenue sources and enhance existing sources	Ongoing

#### H.R.1 Provisions Timeline

Retroactive coverage

Budget neutrality (1115)

limit

**Assistance Percentage for** 

**Emergency Medicaid** 

**Immigrant Eligibility** 

Cost sharing\*

State directed payments

Shift from in-patient to

home and community

phase down for

grandfathered

July

based services

- Indirect impact due to reduced fiscal capacity for state Medicaid program
- Direct impact on uncompensated care

\*Applies only to Medicaid expansion population (adults with income 6 greater than federal poverty level)

## Assess the impact of H.R.1 provisions on the County's Health Fund

- County should perform an analysis on the recently enacted H.R.1, also known as the "One Big Beautiful Bill Act," to understand the immediate and long-term impacts on the County's Health Enterprise Fund
- Provisions include, but not limited to, work requirements, redetermination, provider taxes, FMAP, and directed payments
- It is imperative for the County to grasp the full scope of these provisions as they may increase uncompensated care at Cook County Health (CCH) and fiscally constrain the State of Illinois, who provides financial support to CCH

# Assess the impact of H.R.1 provisions on the County's Health Fund

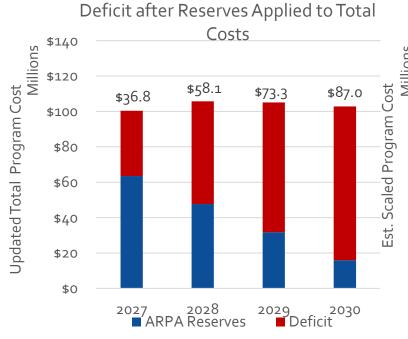

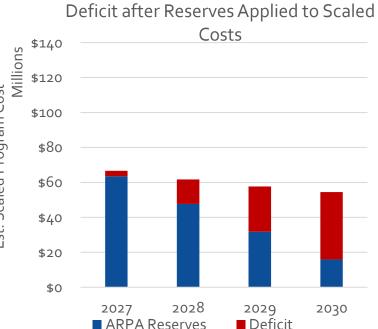

Deliverable	Timing
Collaborate with CCH to understand the breadth of H.R. 1's impact on membership due to policy changes surrounding Medicaid work requirements and more frequent redetermination	Throughout Fy2025 / 2026
Review each of H.R. 1's provisions and begin to integrate impacts into the County's long-term forecast	FY2025
Conduct further analysis and research to determine how these provisions may impact the finances of CCH, and use the findings to develop assumptions for the long-term forecast	FY2026

#### **ARPA Sustainability Plan**

Following the application of the ARPA Reserves for available funding, a total deficit of \$255.2 million across FY2027 through FY2030 remains. Departments need to develop strategies to eliminate the deficits in the short-term and sustain programs in the long-term.

Some programs were able to identify **potential** sources that could reduce the deficit:

- Scaling down or phasing out programs
- Settlement funds
- County special purpose funds
- Revenue generation by the County or Program Partner
- Grants

4-year deficit = \$81.7 million

<sup>4-</sup>year deficit = \$255.2 million

## Continue to consider options to sustain ARPA programs in the long term

- The County is undertaking an extensive process to assess the overall sustainability of ARPA-funded initiatives
- Initiatives identified as priorities to remain after 2026 would require a source of funding

# Continue to consider options to sustain ARPA programs in the long term

Deliverable	Timing
Provide the IRFC with regular updates on the ARPA sustainability process, including efforts to identify external funding opportunities that would provide a sustainable source of funding.	Throughout FY2026
Begin to incorporate costs of sustaining programs, along with available funding sources, in the October 2025 long-term forecast	4 <sup>th</sup> quarter of FY2025

### Meeting calendar
